I think we may have a time zone issue here. I have it at 130 – 200 pacific time, which puts it at 330-400 your time. Is that still a conflict? Not sure why my outlook isn't making this adjustment.

In any case, I have a lunch meeting from 1130-100, so would not be able to do 215 your time, 1215 mine.

Mike

I have a staff meeting 1:00-2:00. Can we do it at 2:15?

Hello Chris and Marty,

I'd like to have a conversation about the CMS activities for next year and the steps that we would need to take to streamline the process. I realize there may be some questions left unanswered, but thought it best to get the wheels moving in this direction as we have been discussing.
